

ECR (axial leads) for customized to audio or other electronics are available as below drawing:

We can provide 500VDC max for high end audio application. Please provide us the rated voltage, capacitance, ripple current, dimension and other details as requested. We will follow your demanding to produce what the capacitor you need.

ECR Dimension (Unit: mm)

VDC	25		35		50		63		100		160		200		250		350		400		450
